

# Elastomeric Nitrile Insulating materials

**BS 476 Part 6 & 7  
Class 0**

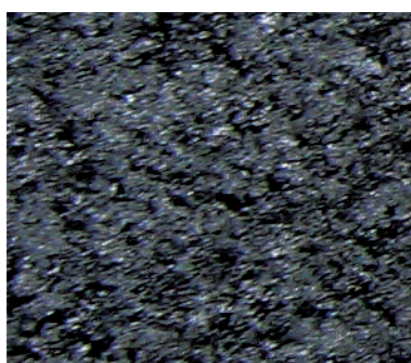

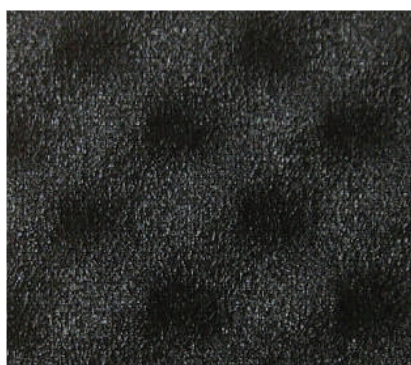

**A** - flex is an innovative new generation elastomeric foam insulation material manufactured from nitrile rubber by ALP Aeroflex India Pvt. Ltd. A-flex is produced in pre- formed sheets and pipe sections. With its wide range of products, up to date methods and latest technologies ALP Aeroflex India Pvt. Ltd. and Group companies design and manufacture products to meet widely differing requirements in diverse fields such as the automobile, air conditioning & refrigeration industry, construction segment, hospitals, pharma industries, hotels and cold storage industries.

A-flex is a flexible thermal insulation material made from closed-cell, elastomeric nitrile rubber. It is also available with adhesive backing and foil facings, enabling fast and simple installation. Accosound (Open cell) and Accofoam (convoluted) are acoustic insulation materials suitable for various air borne and structural noise control applications.

- Closed cell structure
- Light weight & flexible
- High water vapour diffusion resistance factor
- Guarantees thermal & fire safety
- Easily cleaned without deterioration
- Fiber free
- Low thermal conductivity value
- CFC free and ozone friendly
- No health hazards
- No fungal growth
- EPA approved anti-microbial agent

## Technical Performance
